Animal Science Department

EQUINE SCIENCE MINOR
The Equine Science minor is designed for students interested in developing a knowledge of, and competency in, the areas of equine training, nutrition and reproduction. This science-based program exposes students to various aspects of the horse industry, including basic equine management, training, and breeding farm management. By completing this minor, students gain an understanding of the principles and practices used within the equine industry.

Prerequisites. BIO 111 or BIO 161; ASCI 224 and VS/ASCI 229 is required for ASCI 315, ASCI 333, and ASCI 347.

Required courses
- ASCI 112 Principles of Animal Science (B2) ........ 4
