Subject: Resolution on input into Campus Planning, AS-466-96/EX

Thank you for your memo of November 21, 1996, regarding Academic Senate Resolution AS-466-96/EX, Resolution on Input into Campus Planning, adopted November 19, 1996. I would like to offer the following observations:

1. I concur with the expansion of representation on the Campus Planning Committee from one to two representatives from the Academic Senate.
2. The agenda of the Campus Planning Committee will be posted seven days in advance of any meeting of the Campus Planning Committee, except for bona fide emergency meetings called in response to unanticipated deadlines. Such agendas will be posted electronically and the other specified locations cited in the resolution.
3. The Five-year Capital Outlay Program will be made available both electronically and at the University Library.
4. Monthly reports on the status of Major Capital Outlay projects in progress will be made available both electronically and in the University Library.
5. With regard to availability of California Environmental Quality Act documents, these are currently available in the University Library and will continue to be made available there. Due to the size of the documents and the potential for frequent updates, there will be an electronic reference in the Administration and Finance Division web sit of the availability of the updated document in hard copy form in the University Library.
6. The provision for conducting open forums as proposed in the resolution is not practical; however, as an alternative, an open forum will be held in the schematic phase of any project appearing in the Five-year Capital Outlay Program and at such other times as deemed appropriate by this office. Requests for the scheduling of forums from the campus community will be given special consideration.

7. It is assumed that the resolved calling for a yearly report by the Campus Planning Committee to the Academic Senate regarding Major Capital Outlay projects could be delivered in written form unless further elaboration and explanation is desired.

With the above understandings, I hereby approve Academic Senate Resolution AS-466-96/EX, Resolution on Input into Campus Planning. Please express my appreciation to both the Academic Senate and the members of the Academic Senate Executive Committee for their efforts.
