President Warren J. Baker's response of November 30, 2001, to Academic Senate Resolution AS-538-00/FAC, Resolution on Range Elevation Procedures for Temporary Faculty:

"The subject resolution is approved for immediate implementation. By copy of this memorandum to the college deans, I am requesting that each college develop criteria for range elevation of lecturers. Lecturers should be included on the faculty committee charged with drafting the college criteria. As with other personnel criteria, final approval rests with the Provost. The current campus practice, as described in the fourth resolve clause will continue. Likewise, delegated authority to the college deans to make decisions regarding range elevation of lecturers remains in effect.

Please extend my appreciation to members of the Faculty Affairs Committee and to the Academic Senate for proposing this resolution."
