Students from major fields other than Soil Science may broaden their education, and enhance their career opportunities, by selecting the minor in Soil Science.

**Required courses**

- SS 121 Introductory Soil Science (B5) .................... 4
- ERSC 202 Soil Erosion and Water Conservation .... 4
- SS 221 Fertilizers and Plant Nutrition or ERSC 223 Rocks and Minerals ......................... 4
- SS 321 Soil Morphology ......................................... 4

**Restricted Electives** ................................................ 11/14

- SS 310 Urban Soils (4)
- SS 322 Soil Plant Relationships (4)
- ERSC 323 Geomorphology (4)
- SS 345 Soil Interpretations and Management (4)
- SS 422 Soil Microbiology and Biochemistry (4)
- SS 423 Soil and Water Chemistry (5)
- SS 431 Soil Resource Inventory (4)
- SS 432 Soil Physics (5)
- SS 433 Land Use Planning (3)
- SS 440 Forest and Range Soils (4)
- SS 442 Soil Vadose Zone Remediation (4)
- SS 453 Tropical Soils (4)
