

09-11 B.S. Chemistry – Polymers and Coatings Concentration

The following plan is just one EXAMPLE of how to schedule classes to graduate in 4 years. Other schedules may be equally valid. Work with your advisor to develop a plan that meets your needs. Be sure to check your Degree Progress Report (DPR) frequently to ensure you are meeting all degree requirements.

Courses may not always be taught in the quarter shown. Check with the Chemistry/Biochemistry department for the most current list of projected course offerings. Last updated: 7/20/09

¹ A total of 5 units of elective credit are required for this major/concentration combination. The Chemistry Department strongly recommends that you take "Introduction to the Chemical Sciences" [CHEM 101] offered only in Fall Quarter and Supplemental Workshops [SCM 150] for Math and Science for elective credit in your first year. ² 56 units of General Education (GE) courses are required for graduation. You must take one GE from each of these areas: GE A1, A2, A3; C1, C2, C3, C4, C1-4; D1, D2, D3, D4, D5; F. Check PASS or the Cal Poly Catalog for specific course prerequisite requirements and options for completing the USCP and GWR requirement through specific GE courses.

³ Students should take CHEM 331 during their second year, and as soon as possible after completing CHEM 129.

⁴ Internship in Polymers and Coatings - Selected students will spend up to 12 weeks with an approved P&C firm engaged in production or related business. Prerequisite: CHEM 444 or consent.
