

Masters of Science Degree in Agriculture with a Specialization in Dairy Products Technology

Cal Poly is one of the primary training campuses for people entering careers in the dairy foods industry. Our graduate program in Dairy Science and Technology helps to prepare students for careers in the dairy industry to work on product quality, processing and production, sales and distribution, research and development.

This is a world class program whose mission is to provide education, research, and outreach activities that provides solutions, to help manage risk, facilitate innovation, and ensure the value of milk for the foods industry and related business sectors.

Cal Poly invites you to explore the DPTC program, faculty and world class facilities. Please visit the following links and if you have any questions, contact us at 805-756-6101 or contact Dr. Rafael Jimenez by e-mail at rjimenez@calpoly.edu.
