

Undergraduate Admissions

Undergraduate applications numbered 20,816 for Fall 2000, the most applications processed in the past thirteen years, and an increase of 1,420 applications over Fall 1999; 8,870 undergraduate applicants were selected and 3,972 enrolled. First-time freshmen applying for admission numbered 16,600 or 79.7% of the total undergraduate applicant pool, and represented 78.3% of the new undergraduates who enrolled.

Note: Students seeking second Bachelors are processed with the Undergraduates for Admission purposes. Therefore, undergraduate application, selected and enrollment numbers have been adjusted to include second baccalaureates.

Total University Enrollment by Headcount and FTE

The following table shows total University enrollment for Summer, Fall, Winter and Spring quarters from 1990-91 to 2000-01. A reported **College Year (CY)** average is the average enrollment for Fall, Winter and Spring Quarters, plus one-third of the enrollment for Summer quarter. **Academic Year (AY)** average is the average enrollment for Fall, Winter and Spring quarters.

Academic Year	Enrollment Type	Total University Census Enrollment by Term Academic Year Term				CY Average	AY Average
		Summer	Fall	Winter	Spring		
1990-91	Student HC	6,464	17,756	17,259	16,788	19,423	17,268

	FTE	136	707	726	687	752	707

Notes: Whereas second baccalaureate students are processed as undergraduates for admission, they are counted as post-baccalaureate students for enrollment reporting.

Headcount is the total number of individuals enrolled for a particular quarter. **FTE** is full-time equivalent students. FTE is equal to the total student credit units (SCU's) in a quarter divided by 15.

Undergraduate Student Characteristics

Undergraduate Enrollment by Full and Part-time Status

The percentage of undergraduate students classified as part-time (enrolled in eleven units or fewer in any quarter) continued to decline in Fall 2000. Between Fall 1990 and Fall 2000, the percentage of part-time students dropped from 12.5% to 6.7%.

Undergraduate Average Fall Term Units

Between Fall 1990 and Fall 2000, the average number of units taken by undergraduate students has increased from 13.43 to 14.09.

Fall Term	1990	1996	1997	1998	1999	2000
Average Units	13.43	13.98	14.06	14.13	14.14	14.09

Undergraduate Enrollment by Gender

There were 7,024 (44.3%) undergraduate women and 8,843 (55.7%) undergraduate men at Cal Poly in Fall 2000. From Fall 1990 to Fall 1994, the percentage of women undergraduates was approximately 41%. In 1995 and 1996, the percentage was approximately 42%. Between Fall 1998 and Fall 2000 the percentage of women undergraduates increased more than one percent.

Undergraduate Enrollment by Age

The average age of a Cal Poly undergraduate in Fall 2000 was 21.3 years compared to approximately 24.1 years for the CSU as a whole (based on last available CSU data, Fall 1999). Cal Poly also has a large group of “traditional age” undergraduate students (21 years or younger) with 62.6% of the total enrolled undergraduates in that group.

Age Group	Cal Poly	CSU Systemwide
20 and Under	47.2%	31.4%
21	15.4%	11.4%
22	14.3%	11.6%
23	9.1%	9.1%
24	4.1%	6.7%
25-29	6.0%	15.8%
30 and Over	4.0%	14.1%

Undergraduate Enrollment by Ethnic Origin

Cal Poly's undergraduate student population has experienced distinct changes in ethnic diversity over the past decade. The proportion of non-white students grew from 26.6% in Fall 1990 to a high of 34% in Fall 1995. It declined gradually from 1996 to 1998, then sharply from 1998 to 1999. In Fall 2000, 26.4% of Cal Poly's undergraduates were non-white students, a moderate additional decrease from Fall 1999. The decreases between Fall 1995 and Fall 2000 were consistent for all of the non-white ethnic categories.

The total undergraduate numbers are influenced by differences in retention rates as well as admissions criteria and procedures. Non-white students represented 31.5% of the new undergraduates in Fall 1995. This proportion grew to 34.9% in Fall 1997, then dropped sharply in Fall 1998. In Fall 2000, 25.8% of the new undergraduates are non-white.

In recent years an increasing number of students have declined to specify their ethnic origin, complicating trend analysis. For example, this percentage grew from just over 7% during Fall 1995 through Fall 1998, to 13% in Fall 2000.

Ethnic Origin	Fall 1990	% of Fall 1990 Total	Fall 2000	% of Fall 2000 Total
African American/Black	309	1.9%	160	1.0%
Asian	1,762	10.6%	1,679	10.6%
Mexican Descent	1,288	7.8%	1,221	7.7%
Native American	157	0.9%	161	1.0%
Other Hispanic	524	3.2%	505	3.2%
Other Non-White	306	1.8%	461	2.9%
White	11,510	69.6%	9,465	59.6%
Ethnic Origin not Specified	616	3.7%	2,058	13.0%
International Students	73	4.4%	157	1.0%
Totals	16,545	100.0%	15,867	100.0%

Note: Students are not required to report their ethnic origin. The Other category is comprised of students whose ethnic origin does not fit into a specific category. The No Response category is comprised of students not indicating their ethnic origin. For Fact Book purposes, Filipino and Pacific Islander are included in the Asian Category.
