Parking on campus just got easier with PayByPhone for Apple or Android smart phones. The popular PayByPhone mobile app will join the long-standing ParkMobile as the preferred ways to pay at all meters as well as some daily parking lots. Both are available in the App Store, Google Play and the Windows Store. The parking apps are simple, intuitive technology that offer a cashless way to pay. PayByPhone and ParkMobile notify users before parking sessions expire and offer the ability to extend time limits. Both apps are also used across the city of San Luis Obispo, meaning that they come in handy on and off campus.
