Construction of New Plant Sciences Complex Expected to Start Spring Quarter

Construction work for the new Plant Sciences Complex is anticipated to begin in spring quarter. Some prep work may begin sooner, and campus could see site activity during spring break, March 26 through April 1. The project site is on southwest corner of Highland Avenue and Mount Bishop Road. The parking lot outside of the Crop Science Building (No. 17) will be closed during construction. However, no other significant impacts to university operations are anticipated. The complex will bring together multiple complementary disciplines in one hub to tackle California's most pressing food and agricultural challenges. For more information visit, <https://rb.gy/xahvrf>.

Kinesiology and Public Health Professor Alison Ventura to Make Presentation at NIH Conference April 4

Kinesiology and public health Associate Professor Alison Ventura will speak at the National Institutes of Health's Impact of Technology and Digital Media on Child and Adolescent Development and Mental Health workshop, to be held April 4-5 in Maryland. Attendees can tune in virtually for free with advance registration. Ventura's talk will be from 8:10 to 9 a.m. Thursday, April 4. Her research, funded over five years by the Eunice Kennedy Shriver National Institute of Child Health and Human Development, aims to better understand how mothers' use of technology could impact development during an infant's first year. The Children and Media Research Advancement (CAMRA) Act, signed into law in 2023, directs NIH to convene workshops such as the April event to advance knowledge on digital technology and child development. Register for the Virtual workshop at <https://rb.gy/gyaz0x>.

CATASTROPHIC LEAVE
